

# The idea behind CF Insights is simple: What if *each* community foundation could know what *all* community foundations collectively know?

### **Created by Community Foundations**

CF Insights responds to a hunger for shared knowledge and greater impact among U.S. community foundations.

Community foundations grow stronger when their decisions are based on timely, accurate, and complete information. Through CF Insights, community foundations improve performance and sustainability – individually and collectively.

#### **Propelled by FSG**

As nonprofit consultants dedicated to social impact, FSG combines deep knowledge of the community foundation field with world-class research, strategy, and evaluation capabilities.

Learn more about CF Insights at www.cfinsights.org.

# Acknowledgements

We would like to thank all of the community foundations who participated in the 2013 Columbus Survey. This research is a product of the field, for the field, and could not have been possible without the willingness of community foundations to share with one another.

# THE COLUMBUS FOUNDATION

CF Insights would like to offer special thanks to **The Columbus Foundation** which conducted the hallmark community foundation survey on behalf of the field from 1988-2007. We are grateful for the opportunity to now manage this important work of collecting and reporting field-wide data.

We would also like to thank the **Council on Foundations** for encouraging their members to participate in this important annual survey, and for helping to share the results with the field.

Parkersburg Area Community Foundation

#### **Deb Watt**

Chief Finance and Officer Foundation for the Carolinas

# Benchmarking Beyond Asset Size: Top 100 Lists

"What's your foundation's asset size?" This is the most commonly asked question in the community foundation field. However, every community foundation is unique; assets represent just one way to describe how a community foundation operates. Other factors, such as grantmaking, fundraising, donor engagement, and community context all contribute to a community foundation's unique attributes and challenges.

In this publication, we highlight attributes that characterize community foundations in ways beyond asset values. 2013 Columbus Survey participants are ranked based on:

- Most Active Grantmakers distribution rates, with percent of donor advised assets
- Most Gifts per Capita gifts per capita, with population of community served
- Most Activity total gift & grant transactions, with average transaction size

These rankings are not intended to give recommendations of what is 'best'. Rather, these rankings represent a new perspective on appropriate peer benchmarks for your foundation.

In addition to offering new peer group perspectives for your foundation, these rankings can be used to evaluate how your foundation's values and mission align with its ranking. Some examples of aligning values with rankings include:

**Grantmaking** - if your foundation is focused on channeling funds from various sources into the community or working to engage donor advisors who are active philanthropists, then a high distribution rate would be 'best'. On the other hand, low distribution rates and a lower ranking in grantmaking activity would be valued if your foundation is primarily focused on building endowment.

**Transactions** - higher levels of transactions may result from affiliations with community projects (fiscally sponsored), fundraising funds, or other creative fundraising vehicles such as giving cards. These strategies are aimed at increasing gifts to and grants from these funds to promote philanthropy among different populations. However, if you are cultivating larger bequests and focusing on larger, but fewer, grants in your community, you may value being ranked lower on this metric and focus more on just the transaction size.

If you are included in any of the lists, consider communicating your position to promote community philanthropy in your area.

**CF Insights members** can visit <u>cfinsights.org</u> to compare your foundation's performance relative to new peer sets based on these criteria.

**Not included in the rankings?** Consider joining the 280 community foundations that participate in the Columbus Survey. Visit <u>cfinsights.org</u> to find out how to contribute your data or how to become a CF Insights member.

# List Methodology

## **Community Foundations Ranked by Most Active Grantmakers**

The distribution rate is calculated by dividing the foundation's total grants by total assets (including supporting organizations) at the end of the foundation's 2013 FY. The Percent of Total Assets in Donor Advised Funds is the total amount of IRS-classified donor advised funds divided by total foundation assets.

# **Community Foundations Ranked by Most Gifts per Capita**

Gifts per capita is calculated by dividing the foundation's total gifts (including supporting organizations) by the population of the foundation's service area. The service area is defined by each community foundation.

# **Community Foundations Ranked by Most Activity Volume**

Total transactions represent the number of gifts and grants processed annually (including supporting organizations). The Average Transaction size represents the total dollar value of gifts plus the total dollar value of grants divided by the total number of transactions.

# Compare Metrics For Your Own Community Foundation

CF Insights supports the field and our members in using data to uncover insights. Some action steps to consider:

- SHARE these rankings with your board, highlighting how your foundation compares to the field
- CONNECT with you peers to understand best practices and fresh ideas in the field
- CREATE benchmark reports at <u>www.cfinsights.org</u> to view metrics for your foundation's performance over time or compared to a peer aggregate

Once you've logged in to <a href="www.cfinsights.org">www.cfinsights.org</a>, you can instantly generate comparative data to further understand your community foundation's performance relative to peers. Longitudinal trend and high level comparative reports are available for the field and CF Insights members have access to reports with customized benchmarking data.

....

#### The idea behind CF Insights is simple:

What if **each** community foundation could know what **all** community foundations collectively know?

### **Created by Community Foundations**

CF Insights responds to a hunger for shared knowledge and greater impact among U.S. community foundations.

Community foundations grow stronger when their decisions are based on timely, accurate, and complete information.

Through CE Insights, community foundations improve performance and sustainability—individually and collectively.

#### Propelled by FSG

As nonprofit consultants dedicated to social impact, FSG combines deep knowledge of the community foundation field with world-class research, strategy, and evaluation capabilities.
