Goals and Strategies**

TITLE **ONE WORLD: SUSTAINABLE RESOURCE USE**

GOAL To foster environmental stewardship that is ecologically based, economically sound, culturally appropriate and sensitive to intergenerational equity.

STRATEGIES At the **global** level, by advancing international discussions on climate change and biodiversity preservation, and by supporting and publicizing practical, cost-effective models that can contribute to international agreements on these issues.

Within the **United States**, by supporting model programs that further the Foundation's global strategies, and by broadening and deepening the national environmental constituency and reinforcing its ability to act effectively.

In **East Central Europe**, by strengthening indigenous capacity for addressing environmental problems and managing natural resources on a sustainable basis, through education and training, institution building, policy formulation and efforts linking government, the nonprofit sector and business concerns.

In **East Asia**, by assisting communities in their efforts to define and pursue locally appropriate development strategies, with particular attention to sustainable agriculture, coastal management and integrated watershed planning, and to monitor the social and environmental effects of development programs and fiscal policies resulting from East Asia's integration into the global economy.

The foundation staff who carry the primary responsibility for the Sustainable Resource Use portion of the Fund's program are:
